# Welcome Message

The 2023 annual meeting of the Society for Free Radical Research – Europe (SFRR-E) will be held June 6–9, 2023, in Vienna, Austria, at the RADISSON BLU PARK ROYAL PALACE HOTEL, next to the historic imperial summer palace Schönbrunn.

The court of Maria Theresia, who gave her son Joseph II marked the beginning – ideas of the enlightenment and everyday life.

Translation of new exciting science where our fields of redox biology important scientific progress is taking, and translation of our work to will keep our field strong in future.

International experts from a wide medicine and chemistry will find a change and special sessions dedicated educational sessions, peer reviewed symposia

The meeting will be accompanied by matching

in this elegant setting of places rich in culture of many eras, foster interaction and exchange. The internationality of Vienna will ensure that we will not be lost in translation, but rather enjoy a free and radically joyful Viennese waltz.

the palace its current appearance, and the history of natural sciences and – history – as a factor in medicine, government

between the many disciplines and free radical research deliver what will take place at our meeting – society, clinics and industry is what

a wide range of fields including biology, a convenient modern venue for exchange to young researchers, early bird education and competitive selective oral sessions. satellite meetings and social events that will,

We are looking forward to meeting you in Vienna 2023,  
Yours Florian Gruber
